Subject: RE: Oregon 2012 303(d) list -- EPA's proposed listings and OA comment

Thanks Lori. Were there any comments opposed to the proposed listings?

Subject: Oregon 2012 303(d) list -- EPA's proposed listings and OA comment

Hello. It has been awhile since we talked about the Oregon list. Hope you both are doing well. The public comment period closed in early April. Jill and her technical support have been going through the comments, particularly on specific issues/comments on the proposed listings. We did not get many comments on the OA comment. CBD and ODEQ appear to be the only substantive comments on that issue. I have attached those comments.

NWEA as usual commented about the bad job we did in finding all readily available information. I have attached NWEA's comments. We got several comment letters mainly on specific proposed listings.

I'm not sure when I will see a first draft of our responses to the comments. I've also not heard from Jill what decision the Region will make on the OA information. I'll let you know when I know. However, I thought you might like to see these comments sooner than later. Let me know if you want to see all comments.
